Large Clips:

Dimensions: 11.5mm (L) × 11.5mm (W)
Aluminum Nail Diameter: 2mm

Small Clips:

Dimensions: 8mm (L) × 7mm (W)
Aluminum Nail Diameter: 1mm

Semi-Automatic Net Bag Packing Machine

The Net Bag Tying Machine is a high-performance, semi-automatic packaging solution designed to efficiently and precisely seal plastic net bags. It enhances packaging productivity and ensures superior sealing quality, making it an ideal choice for various industries.

Application

This machine is suitable for packaging a wide range of fruits and vegetables, including but not limited to:

- **Fruits:** Oranges, lemons, apples, pomelos, citrus.
- **Vegetables:** Garlic, potatoes, ginger, corn, chestnuts, pumpkins.

With adjustable feeding drum sizes, the machine accommodates various product dimensions and weights, optimizing packaging efficiency.

Recommended for use by:

- Agricultural product supply bases
- Supermarket distribution platforms
- E-commerce supply chains

Parameter	Details
Model	JU-50DS (8 / 14 / 18)
Capacity	15-20 bags per minute
Inner Diameter of Discharge Bucket	14 mm / 18 mm
Outer Diameter of Unloading Bucket	8 mm / 18 mm / 22 mm
Buckle Capacity	200 pcs × 2
Buckle Model	U502 / U503 / U506 / U508
Power Supply	220V, 50Hz, 3002W
Machine Dimensions (L×W×H)	66 × 110 × 78 cm
Machine Weight	64 kg
Package Dimensions (L×W×H)	84 × 74 × 84 cm
Package Weight	95 kg

For any inquiries or assistance, please contact our dedicated team at contact@exotic-club.com or via WhatsApp at **+230 5828 6824**.

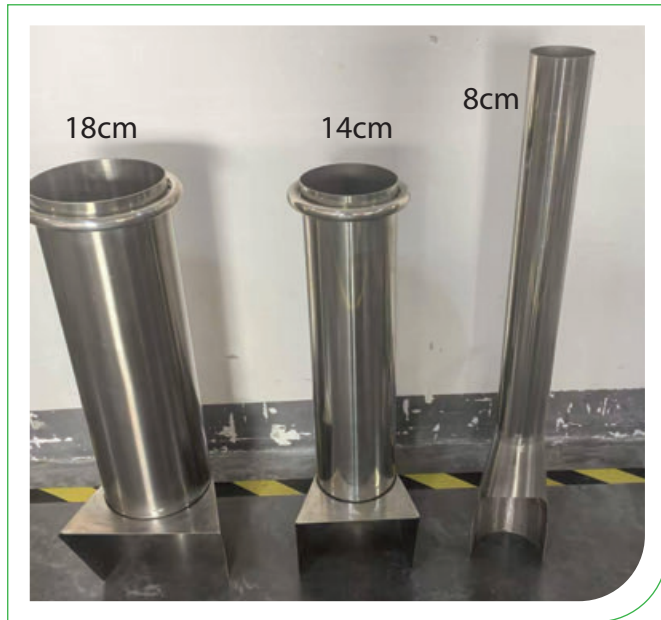

Key Features:

- **High Efficiency & Speed:** Capable of processing **15-20 bags per minute**, significantly improving packaging throughput.
- **Precision Sealing:** Ensures consistent and secure bag closures, enhancing packaging quality and reliability.
- **User-Friendly & Cost-Effective:** Simple operation reduces labor costs while minimizing human errors.
- **Intelligent Design:** The system automatically seals and cuts the bag for seamless operation.
- **Versatile Compatibility:** Accommodates different buckle models and net bag sizes, making it adaptable to various packaging needs.
- **Adjustable Drum Sizes:** Allows customization based on material dimensions and weight, ensuring maximum efficiency.
- **Durable & Compact Build:** Designed with high-quality components for long-lasting performance, while maintaining a space-saving footprint.

Working Principle

The materials to be packaged are placed into the mesh bag via the feeding barrel. The machine then **automatically seals and cuts the bag**, completing the process efficiently and accurately.

The **Net Bag Packing Machine** is an excellent solution for businesses looking to **enhance productivity, ensure consistent packaging quality, and reduce labor costs**.

Interchangeable Tube Sizes for Versatile Packaging

Our Semi-Automatic Met Bag Packing Machine is designed for flexibility, offering compatibility with multiple tube sizes to accommodate various product types. Available tube sizes include:

- 8 cm – Ideal for compact or small-volume packaging
- 14 cm – Suitable for medium-sized products
- 18 cm – Designed for larger or bulkier items

These interchangeable tubes ensure efficiency, precision, and adaptability, making the machine perfect for diverse packaging needs across different industries.

For any inquiries or assistance, please contact our dedicated team at contact@exotic-club.com or via WhatsApp at **+230 5828 6824**.

Semi Automatic Clipper Machine

Product model: GU-50ZD

Buckle capacity: 200 pieces

Buckle model: U502/U503/U506/U508

Dimensions (L * W * H): 560 * 350 * 640 (mm)

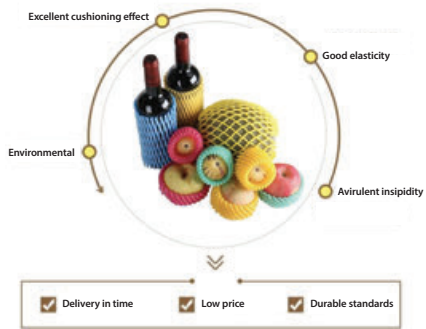

Voltage: 220V/50HZ (other voltages can be customized)

Power: 300W

Packaging size: 630 * 460 * 735 (mm)

Packaging weight: 54Kg

Papaya Protective Foam Nets

Durability Meets Freshness

Our Products

PK

New polyethylene EPE raw material, food grade foaming material, non-toxic and tasteless, directly used in food packaging.

Recycle old raw materials, white color, poor elasticity, smell bad, used for food package containing risks.

PK

Net set plate, beautiful and neat, the cutting work is accurate, no deformation, no sample.

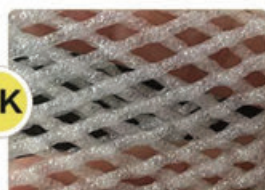

The net is tired and weak, cut off the rough, the serious walking form, the toughness is insufficient.

Others Products

PK

Encryption and thickening, elastic foot, quality guarantee, suitable for the delivery of logistics and the protection of fruit.

The net hole is loose, the elasticity is poor, the quality is general, the resistance is placed, the shockproof effect is poor.
